This all new book covering the brand new Snort version 2.6 from members of the Snort developers team. This fully integrated book and Web toolkit covers everything from packet inspection to optimizing Snort for speed to using the most advanced features of Snort to defend even the largest and most congested enterprise networks. Leading Snort experts Brian Caswell, Andrew Baker, and Jay Beale analyze traffic from real attacks to demonstrate the best practices for implementing the most powerful Snort features. The book will begin with a discussion of packet inspection and the progression from intrusion detection to intrusion prevention. The authors provide examples of packet inspection methods including: protocol standards compliance, protocol anomaly detection, application control, and signature matching. In addition, application-level vulnerabilities including Binary Code in HTTP headers, HTTP/HTTPS Tunneling, URL Directory Traversal, Cross-Site Scripting, and SQL Injection will also be analyzed. Next, a brief chapter on installing and configuring Snort will highlight various methods for fine tuning your installation to optimize Snort performance including hardware/OS selection, finding and eliminating bottlenecks, and benchmarking and testing your deployment. A special chapter also details how to use Barnyard to improve the overall performance of Snort. Next, best practices will be presented allowing readers to enhance the performance of Snort for even the largest and most complex networks. The next chapter reveals the inner workings of Snort by analyzing the source code. The next several chapters will detail how to write, modify, and fine-tune basic to advanced rules and pre-processors. Detailed analysis of real packet captures will be provided both in the book and the companion material. Several examples for optimizing output plugins will then be discussed including a comparison of MySQL and PostgreSQL. Best practices for monitoring Snort sensors and analyzing intrusion data follow with examples of real world attacks using: ACID, BASE, SGUIL, SnortSnarf, Snort_stat.pl, Swatch, and more. The last part of the book contains several chapters on active response, intrusion prevention, and using Snort’s most advanced capabilities for everything from forensics and incident handling to building and analyzing honey pots. This fully integrated book and Web toolkit covers everything all in one convenient package It is authored by members of the Snort team and it is packed full of their experience and expertise Includes full coverage of the brand new Snort version 2.6, packed full of all the latest information

As seen on Ghost Adventures with Zak Bagans, read the real PARANORMAL ACTIVITY, and the story about Bobby Mackey's Music World, known for more violent encounters with spirits than anywhere else in the US. This is a true story of Paranormal Activity. Visitors and staff members report everything from poltergeist-like phenomena, to disembodied voices and laughter, to actual physical attacks by unseen forces. There are, on record, 29 sworn affidavits of sightings, several from police and clergy. Paranormal Investigator Doug Hensley was called in to determine the causes for the strange occurrences. Mr. Hensley, author of Hell’s Gate, made some startling discoveries. This story has been the topic of many worldwide TV shows such as the Travel Channel's weekly series, "Ghost Adventures," "A Haunting" on the Discovery Channel and too many more to mention. Read America's most Documented Haunting, Hell’s Gate.

Stella Gunn is the lead singer and lead guitarist of the Blue Moon Gypsies and Stella used to be Mace’s girl. But Kai “Mace” Mason ended things and the loss of him rocked her world. One night, Stella gets a call, late (again), from one of the members of her crazy band. She has to go play clean up (again), runs into Mace (and a shed load of police) and ends up getting shot. Mace finds he doesn’t like it much that his ex-girlfriend got shot right in front of him, but it’s worse. A very bad man has thrown down the gauntlet and all the Rock Chicks are in the firing line. Stella doesn’t want Mace to be the one to keep her alive, but she has no choice. Mainly because Mace isn’t giving her one.

The undisputed queen of hip-hop fiction, #1 Essence bestselling author Nikki Turner unwraps a talented new collection of writers with raw urban stories to jingle your bells this season. Christmas in the Hood presents fresh talent alongside shining stars such as K. Elliott and Seth “Soul Man” Ferranti—all writing gritty tales that reveal what the holidays bring for the naughty and the nice who live by the code of the street. In “Secret Santa,” after her children’s Christmas presents are stolen, a woman has to decide what she’s willing to sacrifice to give them the holiday they deserve; in “Me and Grandma,” a senior sleighs more crack than candy canes to bring Christmas cheer to her needy grandkids; and in “Holiday Hell,” Noelle must raise \$23,000 to repay a loan shark or her sister will become a ghost of Christmas past. True to the streets and true to the season, these stories will raise the holiday spirit in the heart of even the most ghetto-hardened gangsta. BONUS: This edition contains an excerpt from Nikki Turner's Heartbreak of a Hustler's Wife. “The ghetto’s voice without constraint.”—Upscale, on Tales from da Hood

By the author of Foreskin's Lament, a novel of identity, tribalism, and mothers. Seventh Seltzer has done everything he can to break from the past, but in his overbearing, narcissistic mother's last moments he is drawn back into the life he left behind. At her deathbed, she whispers in his ear the two words he always knew she would: "Eat me." This is not unusual, as the Seltzers are Cannibal-Americans, a once proud and thriving ethnic group, but for Seventh, it raises some serious questions, both practical and emotional. Of practical concern, his dead mother is six-foot-two and weighs about four hundred and fifty pounds. Even divided up between Seventh and his eleven brothers, that's a lot of red meat. Plus Second keeps kosher, Ninth is vegan, First hated her, and Sixth is dead. To make matters worse, even if he can wrangle his brothers together for a feast, the Can-Am people have assimilated, and the only living Cannibal who knows how to perform the ancient ritual is their Uncle Ishmael, whose erratic understanding of their traditions leads to conflict. Seventh struggles with his mother's deathbed request. He never loved her, but the sense of guilt and responsibility he feels—to her and to his people and to his "unique cultural heritage"—is overwhelming. His mother always taught him he was a link in a chain, thousands of people long, stretching back hundreds of years. But, as his brother First says, he's getting tired of chains. Irreverent and written with Auslander's incomparable humor, Mother for Dinner is an exploration of legacy, assimilation, the things we owe our families, and the things we owe ourselves.

Presents, in modern English translation, a selection of documents from the medieval theatre.

This is a book about graph homomorphisms. Graph theory is now an established discipline but the study of graph homomorphisms has only recently begun to gain wide acceptance and interest. The subject gives a useful perspective in areas such as graph reconstruction, products, fractional and circular colourings, and has applications in complexity theory, artificial intelligence,

telecommunication, and, most recently, statistical physics. Based on the authors' lecture notes for graduate courses, this book can be used as a textbook for a second course in graph theory at 4th year or master's level and has been used for courses at Simon Fraser University (Vancouver), Charles University (Prague), ETH (Zurich), and UFRJ (Rio de Janeiro). The exercises vary in difficulty. The first few are usually intended to give the reader an opportunity to practice the concepts introduced in the chapter; the later ones explore related concepts, or even introduce new ones. For the harder exercises hints and references are provided. The authors are well known for their research in this area and the book will be invaluable to graduate students and researchers alike.

A Question of Honor and Duty. First Lieutenant Rob Amity is an Air Force instructor pilot based Stateside during Vietnam. Most of his fellow instructors have flown combat missions, but he hasn't... nor does he particularly want to. This makes him the odd man out in the ready room, torn between his loyalty to his comrades and his objections to the war. Throw in a vindictive senior officer known as Captain "Military" and his feelings for Suzy, his former girlfriend who is now the wife of his best friend and commander, and you have a bad situation that can only get worse. Seeking solace, Rob gives in to the many temptations of the officers' club and the flightline. The more he can focus on the high-octane life of a fighter pilot—flying, drinking, and sex—the less he has to think about everything else. That's the theory, anyway. In practice, it nearly becomes his undoing. Following a horrible tragedy, Rob returns home to rest and recuperate. He finds the world he left for the Air Force changed—even his friends and family. Wracked with guilt and faced with hostility simply for the uniform he wears, he must decide between pleasing those around him with false niceties or staying true to his own thoughts and feelings. Take a seat and strap yourself in, because Sierra Hotel is a full-throttle dive into the world of the United States Air Force during the conflict in Vietnam. Written with the kind of authenticity that only comes with experience, Kent McInnis brings his story to life in lurid detail, with in-flight scenes so real, you'll swear you can smell the jet fuel.
